Terry -

Earl's questions was "I would need to access the server. Is it possible that I could access a server provided by OEI at the NCC?"

Not sure who to pass that on to, do you know?

Thanks,

Gary Miller

Subject: RE: Request for server assistance

If the data must be accessed by personnel outside the EPA, it needs to be hosted on a server provided by OEI at the NCC. I've copied Bhagya Subramanian and Nancy Broom who can help with that.

Please let me know if it turns out the data only need to be accessed from inside the EPA. The data can go on an ORD server in that case.

Thanks

Yes, we have individuals in Regions accessing data on our ORD servers already.

The specifics will have to come from our Enterprise Operations Division who I copied on my previous emails. They are the ones who help jump these hurdles and determine if we have the server space to allocate.

I have copied the Acting Director of EOD so he may follow up with your question, however he will not be back until Friday.

Hi Rick-

Thank you for the speedy reply. What I'm really asking here is to host data that is not ORD's. Some technical answers are needed before we run to the Service Catalog for IT/IM services for ORD.

The main question here is : If I want to help EPA Region 6 and the U.S. Army Corps by hosting their data on one of our ORD servers, can they even access it?? They are outside of the ORD firewall. And, U.S. Army Corps is a different Federal agency... There are so many restrictions on accessing our ORD servers, I question if we can even pass the access hurdle.

Thank you for your technical help,

John

Hi Ann-

I received this request from Terry Burton in EPA Region 6. He is asking if we (ORD) could host some server capability to help with the San Jacinto Waste Pits site. Are you the right person to help out with this? If not, who might be?

Some supporting info we would need for this request:

- 1) Can they access EPA servers from outside?
- 2) How much server space do they need ?

Thank you in advance for your help!

John

Hi Gary,

This note is to let you know that Randy Parker of ORD's Cincinnati office is looking into whether ORD could host some server capability to help with the San Jacinto Waste Pits site. Randy is also very knowledgeable on funding arrangements and agreements, so he would be able to provide great advice there. I've copied Randy so that he knows you are the RPM in question. He will get back with us when he gets an answer. Thanks.
